

Students, YOU are the primary architects of your careers.

FACT SHEET FOR STUDENTS

As you explore careers with the ASVAB program, find out how your interests and skills relate to the demands of occupations.

FACT: Many students are not sure about what they want to do after they finish high school.

FACT: Having a good foundation of knowing who you are helps you to make realistic and satisfying educational and career choices.

FACT: The **ASVAB Career Exploration Program** can help you develop and execute a blueprint to build your career.

The ASVAB Career Exploration Program is appropriate for virtually all 10th, 11th, and 12th grade students. You can benefit from the Program whether you plan to pursue further education after high school or enter the workforce right away. The

Program is designed to help you:

- Learn more about yourself and the world of work
- Explore occupations in line with your interests and skills
- Develop an effective strategy to realize your career goals.

The ASVAB Career Exploration Program helps you identify your interests. The Program also provides you with information about your strengths in three skills areas (Verbal, Math, and Science and Technical Skills). In addition to helping you find out about yourself, the Program provides interest and skill importance information for more than 400 occupations so that you can judge your potential for success in various occupations.

Take advantage of the ASVAB Career Exploration Program as you consider a full range of career options.

**Get the information you need to develop
and realize your career goals.**
